CEF Training

In October Heather Hall from Child Evangelism Fellowship (CEF) came and held a week of leadership training classes for the Angels. Heather was in San Vicente last year for training and it was so very helpful for both the Angels and for Lynne and me. She used the time this year to train the youth how to teach children effectively share Jesus. Part of the training was also used to prepare the Angels for their missions trip over Christmas to central Mexico.

Megan Stone came to serve as a translator. Megan is perfect for this job because she has worked in CEF in the past. We hope both will return again next year.

MDU

The mobile dental unit (MDU) continues to draw people to have their teeth cared for but in the process gives us an awesome opportunity to share Jesus. The MDU was in use twice at Gabriel House (home for handicapped children) followed by a day in Vicente Guerrero specifically for senior citizens. In November it was used for three days in San Quintin area with fellow missionaries Buky and Theresa along with Dr Miller and his team. Then we partnered with another ministry to provide care to handicapped people. Each time we serve these handicapped people we feel the desire to thank God for our health and ability to serve others in the name of Jesus. Later in the month we were in Tijuana for a "Medical Brigada" in which we partner with the Tijuana Pastoral Alliance. This outreach is awesome partnership between both Mexican and American personnel for the sole purpose of Sharing the Love of God.

School Outreach

We were not sure it would work out this fall but at the last minute the opportunity opened for us to go back into the schools for our "Community Health Education" training. We were able to go into several schools during the week. What a wonderful opportunity to show the love of Jesus in a very practical way. It is rewarding to watch not only the children respond but to have the teachers thank us and ask if we will come next year. It is fun to watch the Directors faces light-up when we walk in and ask what they can do to help us. We feel this is one of the ways to build relationships and share Jesus in a practical way. The hats that people make are a great addition and the kids line up to get their hat and have big smiles on their faces.

Trying to fix *another* person will only
add to my anxiety
Letting Jesus *work on me* is where *real*
progress can happen
