

## Angels

**Ely:** a few days ago Ely, the former student leader of the Angels, sent us a note. She stated that the school in which she is working asked her to present the true Christmas story since she had experience working with and leading the Angels. She was so excited and wanted us to know she is using her training to share Jesus with children. She also told us that while serving with the Angels she found that she loved little children and plans to attend university and become a kindergarten teacher.

**Priscila:** A few years ago Priscila served with the Angels for 3 years while living in San Vicente. She was a strong willed young lady and in rebellion when Pastor Jose asked us to allow her to be an Angel. Within five months she was on the worship team, making friends with good church youth and doing very well in school, a major turnaround in her life. Priscila is now one semester from graduating university as a teacher. She contacted us to say she is still on her churches worship team, finishing school and taking what she learned as an Angel and training other young people to share Jesus and serve others. Seems she is doing exactly what our goal has been with the Angels: that of discipling young people and for them to disciple the next generation and for those to train the following generation till Jesus comes.

**Alejandra:** Alejandra was our second Angel before the youth even had the title Angel. She served with us for a few years and then walked away from God and the church for a few years. After high school and being rejected in nearly everything she tried she came back to God. After giving her life totally to God and promising to do anything God wanted, her life began an amazing turn around. She was accepted into Seminary and is graduating this month. Not only that she met the love of her life and will be married in three months. Plus her future husband has graduated from the same Seminary and has taken a church near Mexicali and Alejandra will join him after the wedding. She is thrilled and looking forward to being a pastor's wife and the ministry they will have together.

This is just three of the young people we have had the privilege to serve with us and be able to train to be servants of Jesus Christ. We believe there will be more young people who will have desire to use the talents God has given them to reach and train others to serve.

**When a deep injury is done to us,  
We never heal until we forgive.**

## Dave's Health

Dave had an appointment with his Cardiologist and was given a good report and cleared to return to Mexico for another 6 months. He wants to continue monitoring his heart and is hopeful it will continue to heal. The AFIB is well under control and he feels that the procedures they preformed have been about 90% successful. They are also continuing to monitor his blood pressure but mostly they are having success controlling it with medications.

We would ask that you continue to pray for Dave and that the medical team have wisdom to help control and or heal his body. Thank you all for your prayers.

## Goal with The Angels

A couple of years after the first young lady joined our teams to share Jesus with her own people we were told that this group of young people was a great discipleship ministry. After thinking about that comment for a few days we realized, YES, this is really a very practical way to train young people how to not only live for God but share that with others. Ever since that point we have endeavored to train the youth not just with what the Bible teaches but how do you put that knowledge into practice.

Now to see some of the youth begin to take their experience and train others is conformation that our, and your investment in time and resources is paying dividends. Without your prayers, encouragement, and support through finances and sending teams this would not have been possible. We want to thank you for your partnership and trust in us. The Angels love all you have done to support this unique ministry.

### For Financial Partnership

Send funds with a separate note stating "Johnson Support"
