

Dave's Health Update

At our last report we reported about the "Ablation" to my heart. Well a few days later my heart returned to the AFIB condition which resulted in a new medication and they shocked my heart to reset the rhythm. That corrected the AFIB but then it began skipping beats. The skipping beats made it very difficult to do much as I would encounter dizzy and lightheaded feelings whenever I tried to do much. The doctor suggested to give it 6 weeks to see if my heart would correct itself. Slowly I begin to feel better and that allowed me to begin light exercise. After 7 weeks I was doing much better.

The next visit to the Cardiologist he said I was good to go. Both the AFIB and the heart skipping beats had been controlled. He said he would see me in 6 months and we were free to return to Mexico and resume full time ministry to the town and people we have grown to love.

Immediately we begin the process of packing up, returning the 5th wheel (Dave's brother has so generously loaned to us), saying our good byes and leaving. On the way south we were able to see some family which was very special.

We are now back in San Vicente and have a full summer schedule planned. Thank you for your prayers, encouragement and support during the past several

Praise and Prayer

- ◆ Praise that we are back in San Vicente
- ◆ Praise for Dave's improved health
- ◆ Praise for a national leader for the Angels
- ◆ Pray for safety as we travel this summer with the Angels to share Jesus
- ◆ Pray for continued improvement in Dave's health

We pray that you will be blessed and encouraged as you see God working in the lives of people to bring them hope in the Savior. Thank you for being there so we can be here as your ambassadors. We appreciate your faithful prayers and support.

Holy Name Dental Team

It was great to partner with this group of dentists from Vancouver, BC, Canada again. We spent a week in a Vicente Guerrero, a community 50 miles south of our home. Most days we had seven dental chairs working at a time and they worked long days. By the end of week they had treated over four hundred patients. I think everyone was a bit tired but happy with how the week had gone. We look forward to partnering with them again next year. What great a way to show God's love in a very practical way.

As usual we met some great Christian people who operate the location with whom the group stayed. We both had some wonderful conversations with people through out the week and enjoyed meeting new people.

Angels

We are very excited to see a former Angel who just graduated from a year long missions school take the leadership of the discipleship team. Alba was part of the Angels for several years and is a young lady whom we have assisted through Jr Hi and High School so she could get an education. Then to see her go to a school focusing on missions and now back in San Vicente is awesome.

Alba is a little nervous about her new role but watching her this week as the Angels prepare for a summer of ministry is amazing. She knows how we have done things for years and now she has ideas of her own and we are pleased to support her in this new role.

This may be the fulfillment of our goal to see a national person take the leadership of this discipleship ministry and make it their own. The goal of missions should always be to train nationals for leadership and then step back and let them lead in their own style. Lynne and I are so pleased to see this happening.

"Leadership is not about titles, positions, or flowcharts. It is about one life influencing another."

John C. Maxwell
