Begin the build

Walls going up

Trusses loaded and moving to site

End of first day

## The Angels

Alba was an Angel for 8 years and then attended missions school. After graduating she took over leadership of the youth discipleship ministry. The Angels

## The Angels

A few days ago I was talking with Pastor Jose as our team was building a house for Alba. After a 20-30 minutes Pastor said, a week ago I was talking to the Angels and I learned something I think you should know. I asked them when, where and how did they come to having Jesus part of their life. Most of the Angels said, it was at a children's program that Dave and Lynne were doing with one of their teams. Some of the youth knew what church was here and involved with the outreach and others just knew it was a missions team from the USA or Canada.

WOW, can you imagine how we felt to realize after fifteen years that most of our Angels, Discipleship Team, are youth whom have come to Jesus as a result of the ministry God gave us in San Vicente.

Many people never know the results of what they do for God and for Lynne and I to learn this after fifteen years is awesome. We had no idea that any of the Angels had come to Jesus at one of our outreaches and then to learn that most had made a decision with one of our teams is thrilling.

Every group which has come to partner with us, and every church which has prayed for us and supported us and every family who has prayed for us and supported us is a part of this rich blessing.

Thank you each and every one for your faithful part.

God doesn't call us to be successful. He calls us to be FAITHFUL.

## Dedicating Alba's house to Jesus

## Family Church

Several months ago we were talking with Pastor Craig Hall of Family Church and the idea of a construction team was hatched. We had a desire to help Alba, who is leading the Angels, have a house of her own. She already had the land.

Pastor Craig put a team together and they built a house in 4 days. Alba and the Angels will do things like paint and other finishing touches but she has a house.

For some of the team this was their very first missions trip. We loved watching how contractors and labors worked as a team to make major progress each day. They even had the Angels working and teaching them some of the art of building a house so everyone was involved. This was also a wonderful example of showing people that God's family cares about others and is willing to help those who dedicate the lives to the service of God.

Alba's family prepared lunch for the team two days during the build and the church ladies made lunch the other two days. Very hard to beat homemade tamales and fish taco's for lunches.

We want to thank Family Church and Pastor Craig for partnering with us to provide Alba with a house. As we dedicated the house on the last work day our prayer was that this house would be used for the benefit of God's work and that Alba will be able to use the house as part of her ministry for many years.

Family Church Construction Team

I can do all things through Him (God) who strengthens me. Philippians 4:13
