

Good News Community Church

It was awesome to have Wes and Michel lead their team from Good News Community church to San Vicente again this summer. Their team is always fun and willing to support The Angels in ministry. We went to Ojos Negros the first day to support and encourage Isidro and Silvia as they are pastoring a church plant. The San Vicente church felt led by God to start a church in this framing community and sent one of their own families to lead that new church. We love to support this venture with our teams.

A couple of other days we went to a newer village which is perched on the side of a hill a few miles north of San Vicente. We love supporting Pastor Filipe as he serves the village of Francisco Villa.

They also performed a number of needed repairs on the mission base.

Friday evening we had a birthday party for the Angels and Good News cooked hamburgers for all. Had ice cream, birthday cake, and then had a time to sing praises to God.

Good News and The Angels

Sewing Classes

Lori held another week long sewing class for the community. These classes have helped several ladies learn a skill which allows them to make a few dollars to provide for their families and still be home for the children. As they learn a skill it often gives them confidence to tackle other opportunities and learn other skills. We have seen so many positive results from these classes and hope they will continue. Lori does a great job and we appreciate her work in this area.

Taking care of all facets of these classes is a lot of preparation and then some stressful moments as she assists the ladies. There is a real art to making this whole class a success. Thank you Lori.

Mapleview Baptist Church

Pastor Blaze brought part of his youth group again to partner with the local church. His team works very well with the Angels and together we are able to support Pastor Filipe reach people for Jesus. It is so fun to have about 40 children from the small community of Francisco Villa in the little church. Love seeing the interaction during the game time and see how they can encourage the children to join the action as the songs are being sung.

Blaze helped part of the team trim the trees hanging over our wall from the neighbors. Most years the trees grow and seemed determined to cover our security wall. We need to keep them trimmed back so very grateful for Mapleview's help. Once we had finished that job we had to take the pickup load of trimmings to the land fill. Going to the local dump is often looked at as a "cultural" experience.

Lynne and I are so thankful for pastor Blaze and his partnership with this ministry.

Our Culture has accepted two huge lies. The first is that if you disagree with someone's life style, you must fear or hate them. The second is that to love someone means you agree with everything they believe or do. Both are nonsense. You do not need to compromise convictions to be compassionate. -Phil Robertson

"What is impossible with man

Is possible with God" Luke 18:27
